

Function Buttons

ON/OFF

Use this button to turn the scale on or off.

Initial use of the scale without app

1. Remove the GasWatch™ BT App enabled BBQ Tank Scale from the box.
2. Insert 3 AAA batteries into the digital display.
3. Press the **ON/OFF** button to turn on the scale, then put the tank on scale, LED under the related volume will illuminate, details as below

Weight	Gas percentage	LED illuminated
$0 < \text{weight} \leq 3.2\text{lb}$	10%	- < 10%
$3.2 < \text{weight} \leq 6.0\text{lb}$	25%	- < 10% ; 25%
$6.0 < \text{weight} \leq 9.0\text{lb}$	50%	- < 10% ; 25% ; 50%
$9.0 < \text{weight} \leq 14.4\text{lb}$	75%	- < 10% ; 25% ; 50% ; 75%
$14.4 < \text{weight}$	100%	- < 10% ; 25% ; 50% ; 75% ; 100%

4. Place the gas tank on scale.

Note: The default tank weight when you turn on the scale is 16.6lb

Initial use of the scale with app

1. Press the **ON/OFF** button to power up the scale once you have completed the steps above.
2. Open the Gaswatch app on your device, then let it connect with the scale, if scale connected successfully, the LED will display in loop. If the scale does not connect successfully open the Bluetooth setting on your device and scan for the scale. Once the scale is located choose it and make sure it is paired. Use the pin # 000000 to pair the device and the scale.
3. Choose your tank weight on the app by selecting the tank picture on the bottom left or swiping the screen to the right, then press the submit button, and the gas volume will be shown on the app.
4. During your use of the scale, press Refresh in GASWATCH app to update the gas volume.

Note: The app has 5 different kinds of tank weight at "16.6lb, 14.0lb, 17.6lb, 18.0lb and 19.0lb", default tank weight is 16.6lb, but to keep accuracy, please choose the correct tank weight during your use of the scale.

ERROR Messages

Red LED and Yellow LED flashing in loop for 5 seconds: Low battery, need to replace with new battery.

All the LED flashing for 5 seconds: Load over of 43lb has been detected remove the propane tank and replace with a suitable tank.

All the LED illuminated in loop: Blue tooth connecting

Helpful Hints

- Make sure the tank is seated properly within the GasWatch™ scale ring.
- Program the weight prior to placing the propane tank on the scale.
- If the display is not working:
 - Press the ON/OFF button
 - Check the batteries to make sure that they are in good condition and functioning properly.

- The digital display can be located outside of the grill cabinet for better visibility.
- If the Bluetooth is turned off or you go out of range make sure to kill the app and reopen it once you are in range and the Bluetooth is on for it to work properly.

Battery Replacement Instructions

“Danger of explosion if battery is incorrectly replaced. - Replace only with the same or equivalent type recommended by the manufacturer. Discard used batteries according to the manufacturer’s instructions.”

Battery Caution & Disposal

For best results, use type alkaline batteries.

Install only new batteries of the same type in your product.

Failure to insert batteries in the correct polarity, as indicated in the battery compartment, may shorten the life of the batteries or cause batteries to leak.

Do not mix old and new batteries.

Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries.

Do not dispose of batteries in fire.

Batteries should be recycled or disposed of as per state and local guidelines.

Warnings

- Keep the scale and display out of rain, snow and any kind of water. Moisture will damage the scale. No Warranty is given if scale is damaged due to water/moisture. Use scale and display under a protective cover to avoid rain or snow.
- Keep all plastic materials and batteries out of the reach of children. Small parts represent choking hazards and may cause injury or death.
- Not to be used with loads over 43 lbs.
- Make sure unit is located on a level, flat surface.
- Always use caution when operating your gas grill.
- Do not hold or hang dial near open flame or hot surface.
- Never place the scale or propane tank on top of the hot grill.
- Do NOT apply direct heat to the unit.
